EDUCATION ENROLLMENT

Kalvium's UG program in CS (Software Product Engineering)

2024-28

Campus: Rajamahendravaram | Bachelor's enrollment: B.Tech, Godavari Global University

TECHNICAL SKILLS

- **Full-Stack Development** - React.js, Node.js, Express.js, MongoDB, REST APIs, JWT Authentication, Redux;
Proficiency Level - Intermediate
- **Programming & DevOps** - Python, Java, JavaScript ES6+, Git/GitHub, Docker, Bruno, VS Code;
Proficiency Level - Intermediate
- **Cloud & Database** - Vercel, Netlify, MongoDB Atlas, PostgreSQL, API Integration;
Proficiency Level - Intermediate

PERSONAL STATEMENT

Self-driven software engineer with a focus on full-stack product development using the MERN stack. Passionate about building impactful web applications and polished UI/UX experiences. Proven ability to own features end-to-end—from ideation and design to backend APIs and deployment.

PROJECTS

Github Project - OfficeHub

Github Repo Link - [OfficeHub](#) Live Link : officehub1.netlify.app

- Architected a productivity suite supporting **3 core tools**, targeting students and entry-level professionals
- Built a mock e-commerce store listing **30+ items** with cart logic and <120ms filtering speed
- Delivered a modular Portfolio Creator tool with **MongoDB-backed persistence**
- Led Git version control, CI deployment via Netlify, and handled codebase architecture

Github Project - Personal Portfolio Website

GitHub: [Portfolio Repo](#) Live: <https://myportfolio-cyan-two-35.vercel.app/>

Tech Stack**: HTML, CSS, vercel

- Launched a portfolio viewed by **400+ unique users** in 3 months with **100% mobile responsiveness**
- Applied semantic HTML and CSS Grid to improve SEO and accessibility scores

ACADEMIC/OTHER TECHNICAL PROJECTS

1.To-Do List Application

React.js, Context API, Local Storage Built productivity application managing 1,000+ tasks with 95% completion rate

2.E-commerce Web App

Created a shopping interface with add-to-cart functionality using React.js and JavaScript.

3.MINGLE : a chatting platform

ACHIEVEMENTS & LEADERSHIP

- **Technical Leadership**: Led development of 2 major projects,
- **Open Source Contributor**: 94+ public repositories and over 200+ GitHub commits.
- **UI/UX Workshop Lead**: Conducted a **hands-on UI/UX design workshop** for juniors, teaching fundamentals of user-centered design, wireframing, and usability best practices.
- **Database Architect**: Structured 4+ scalable MongoDB schemas optimized for 1,000+ concurrent operations
- **API Development**: Built 15+ RESTful endpoints with comprehensive testing and documentation
- **Performance Expert**: Optimized applications achieving average 40% speed improvements

OTHER SKILLS

- **Adaptability** ***Communication** ***Critical thinking** ***Teamwork** ***Problem-solving** ***Leadership**
